Home & School CONNECTION

Working Together for School Success

Strong Study Habits

Q: My third grader has to spend more time studying this year. How can I make sure she studies effectively?

A: Set your daughter up for success by helping her find a distraction– free study spot. Also, have her come up with a study routine. For instance, she could reserve time each evening to review her textbook and notes in the days leading up to a test.

Also , many students find it helpful to jot down a

purpose each time they study. Your child might write: “ I will learn the definitions of all the bold-faced words in chapter 7, section 1.”

Finally, encourage her to experiment with study strategies to find what works best. She could close her eyes and imagine how a word is spelled or draw a grid with 9 squares to solve 3 X 3. Or she might find it helpful to spell or recite math facts aloud in rhythm or to a familiar tune.
