Check Those Backpacks!

Class newsletters, event flyers, notes from the nurse, permission slips, homework— these are just a few examples of things sent home on a daily basis. Please make sure to double check your child's backpack every night to stay in the know and help your student have a successful year!

Student Drop off/ Pick up

For your child's safety, student drop off is NOT PERMITTED anywhere except the front office. Students arriving after 8:00 am must be signed in and all students picked up (regardless of time) must be signed out. All visitors are required to sign in to the front office and receive a visitor's sticker in order to be on campus. Anyone without a visitor's sticker will be asked to sign in with the office or to leave.

Math+Science Connection

Intermediate Edition

Q: I've never felt comfortable with math. How should I talk to my children about what they're learning in math class?

A: Try to show enthusiasm for what your youngsters are doing in math. You might ask them each day at dinner or homework time what they studied in math that day. Let them explain the concepts they're working on, and follow up with questions. For instance, if they're learning about decimals, you could ask how decimal points are used in money (they separate the parts of a dollar from the whole dollar).

Then, when your children finish their homework, have them show you how they solved a few problems. As they explain their methods to you, they'll be reinforcing their own skills; and they'll be proud to be teaching you something!
