❖ Reports

○ SY 2020/21 Virtual Learning Updates

The majority of the schools will be starting via virtual learning. Are there any schools that are doing in-person learning or partial in-person learning? What is the duration of your school's virtual learning? As per Governor's Resolution? Until the end of the semester? Until the end of the school year? If school has begun, please share how virtual learning is going so far including any technology issues your school is currently experiencing such as ipad, jetpack, mobile hotspot, wifi connection.

○ Truancy

How will your school be addressing Truancy this school year? Has your Board and Administrator worked to develop a policy? Please share how your school will ensure its students are attending school. The attached email is an example of how the Colorado Department of Education is handling "Calculating and Reporting Attendance and Truancy in Online Schools".

Other

At next month's meeting, one topic of discussion to be added to the agenda will be the Cultural aspect of on-line teaching and how the Culture Instructors are adapting to this method of teaching.

*"Making our schools great"*
